Jul 1, 2018 SNEAK PREVIEW: License key extraction. The new license key validator will replace the old key validator. The license key validator uses the current version of JIRA to check the key format and check validity. If the license key is not valid, an error will be displayed. Sep 16, 2018 The license key extraction functionality is . Dec 19, 2017 Jul 2, 2015 New License Key validator (comes with JIRA 6.0.3 build). Using the existing validate\_keys.pl script from a previous version can be used to extract the . Jul 23, 2018 As of JIRA 6.0.6, JIRA is no longer able to validate custom project keys and thus the way to extract a license key needs to be different. May 30, 2014 Warning! Warning! Currently, one cannot extract the license key from the database for the JIRA instances that are running JIRA 5.0.9 and earlier versions as the JIRA 5.0.x license key validator and extractor uses a much newer version of JIRA. Format. High-level description. When you implement the new validator and extractor, you should convert your project keys from the older format to the new format. For example, if the project key . Sep 13, 2019 Sep 19, 2019 Sep 22, 2019 Description. License Key Identification and Validation. Use the newly added 2.2.0.2 . Jun 29, 2019 Sep 22, 2019 Sep 23, 2019 NEW IDENTIFY KEY VALIDATOR AND EXTRACTOR IN JIRA 6.0.0. The new license key validator allows one to implement custom validators and extractors for any of the recognized project key formats. The new IDENTIFY KEY VALIDATOR AND EXTRACTOR takes in a project key format, and validates and extracts the license key from the database. Jun 29, 2019 Sep 22, 2019 Sep 23, 2019 Sep 26, 2019 Sep 25, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 Sep 26, 2019 f678ea9f9e
